Advance Your Career in Fire Safety with Endeavour Training

Delivered by Endeavour Training, part of the Endeavour Group, the ProQual Level 3 Award in Fire Risk Assessment is a nationally recognised, regulated qualification awarded through ProQual. Designed for those working in, or aspiring to work within, the fire safety sector, this flexible programme provides a solid foundation in fire risk assessment principles, legislation, and practice. Learners develop practical knowledge aligned to recognised competency frameworks, supporting confident progression into fire risk assessment roles and further professional development.

Who the Course Is For

This course is ideal for those involved in supporting, undertaking, or reviewing fire risk assessment activity within their organisation, including facilities managers, property professionals, health and safety practitioners, and operational staff seeking to develop recognised foundation-level competence in fire risk assessment practice.

Career Progression & Professional Recognition

The ProQual Level 3 Award in Fire Risk Assessment is a nationally recognised, regulated qualification that supports the development of foundation-level competence aligned to BS 8674. It provides a recognised entry point into fire risk assessment practice and can support progression to further study, including the ProQual Level 4 Certificate in Intermediate Fire Risk Assessment, helping learners build professional credibility and progress within fire safety and risk management roles.

Expert Tutor Support

Training and assessment are supported by experienced Fire Safety professionals with extensive real-world expertise. Learners benefit from practical guidance, professional insight, and ongoing support throughout the qualification.

Structured Learning & Online Portal

Learners are supported through clear workbooks, guidance materials, and access to an online learner portal, providing a structured yet flexible route to completion. Evidence is gathered from real workplace activity, making learning immediately relevant.

Flexible Distance Learning

This qualification is delivered via distance learning, allowing learners to study around work and personal commitments. With a 12-month access period, candidates can progress at a pace that suits them, typically completing within 6-8 months.

What You'll Do on the Course

Fire Risk Assessment Process

Learn the key stages involved in completing fire risk assessments for low-risk buildings, including hazard identification and risk evaluation.

Fire Development and Behaviour

Understand how fires start, develop, and spread, and how building materials and layout influence fire behaviour.

Fire Protection Measures

Explore active and passive fire protection systems and their role in supporting life safety and effective risk control.

Managing and Reviewing Fire Risk

Develop knowledge of fire risk management systems, human factors, and the importance of monitoring and review.

Why Choose Endeavour Training?

Because you want training that's credible, flexible, and built around real work, delivered by industry experts and backed by recognised accreditation.
