Advance Your Career in Fire Safety with Endeavour Training

Delivered by Endeavour Training, part of the Endeavour Group, the ProQual Level 4 Certificate in Fire Risk Assessment is a nationally recognised, regulated qualification awarded through ProQual. Designed for experienced practitioners and those progressing from Level 3, this flexible programme develops intermediate fire risk assessment competence aligned with BS 8674.

Learners build practical knowledge in assessing low- and moderate-risk buildings, managing fire safety in more complex environments, and producing clear, legally compliant reports. The qualification supports confident progression into higher-responsibility fire risk assessment roles and continued professional development within the fire safety sector.

Who the Course Is For

This course is ideal for experienced fire risk assessors, health and safety practitioners, facilities and property managers, and fire safety professionals who are undertaking or reviewing fire risk assessments for low- and moderate-risk buildings. It is suited to those seeking to develop recognised intermediate-level competence and progress into more complex fire risk assessment roles within their organisation or consultancy practice.

Career Progression & Professional Recognition

The ProQual Level 4 Certificate in Fire Risk Assessment is a nationally recognised, regulated qualification that supports the development of intermediate-level competence aligned to BS 8674. It provides a recognised progression within fire risk assessment practice and can support advancement to further study, including the ProQual Level 5 Diploma in Fire Risk Assessment, helping learners strengthen professional credibility and progress within fire safety and risk management roles.

Expert Tutor Support

Training and assessment are supported by experienced Fire Safety professionals with extensive real-world expertise. Learners benefit from practical guidance, professional insight, and ongoing support throughout the qualification.

Structured Learning & Online Portal

Learners are supported through clear workbooks, guidance materials, and access to an online learner portal, providing a structured yet flexible route to completion. Evidence is gathered from real workplace activity, making learning immediately relevant.

Flexible Distance Learning

This qualification is delivered via distance learning, allowing learners to study around work and personal commitments. With a 12-month access period, candidates can progress at a pace that suits them, typically completing within 6-8 months.

What You'll Do on the Course

Apply Structured Methodologies

Undertake fire risk assessments for low and moderate risk buildings using recognised methodologies aligned with current legislation and BS 8674.

Evaluate Fire Protection Measures

Assess compartmentation, external walls, fire detection and protection systems, and means of escape to determine performance and compliance.

Produce Defensible Reports

Plan, write, and present clear, evidence-based fire risk assessment reports with proportionate, legally compliant recommendations.

Develop Professional Competence

Reflect on your practice, strengthen professional judgement, and build intermediate-level competence to support progression within fire risk assessment roles.

Why Choose Endeavour Training?

Because you want training that's credible, flexible, and built around real work, delivered by industry experts and backed by recognised accreditation.
